

CLEAN COPY OF 1ST PARAGRAPH OF PAGE 1

BACKGROUND OF THE INVENTION

1. Field of the Invention

721
The invention relates to a roll stand for hot-rolling or cold-rolling of rolled strips of different materials, including work rolls, back-up rolls and, optionally, intermediate rolls, wherein the rolls of at least one pair of rolls are axially displaceable toward both sides and have contours suitable for compensating rolling defects.

SUMMARY OF THE INVENTION

7/27
The invention is based on the object of simplifying the axial displacement of the rolls of a roll stand as compared to the solution with displaceable chocks.
